

100 Day Municipal Turnaround Plan

A data-driven blueprint to transform municipalities into transparent, sustainable, and trusted institutions.

CrossCheck
Local- & Central Government Information Bureau

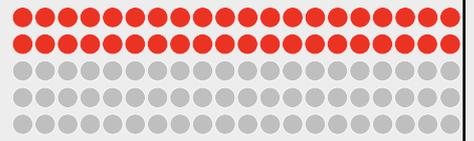

Why 100 Days Matters

Municipal challenges aren't solved overnight, but with focus, the first 100 days can reset the foundation, restore compliance, and rebuild trust.

This plan is designed for leaders who want facts, not guesswork — and a clear pathway to visible improvement.

Phase 1:

Stabilisation (Days 1 – 40)

What to Do

Conduct a full diagnostic: *financial leaks, compliance gaps, procurement risks.*

Achieve quick wins: *clean debtors' data, stop irregular expenditure, reset reporting.*

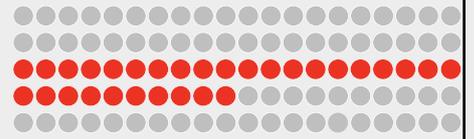

Establish transparency: *credible reporting to council, auditors, and constituents.*

Outcomes

- Clear baseline of the municipality's health.
- Early confidence from officials and community.
- Halted financial bleeding.

Phase 2:

Recovery (Days 41 – 70)

What to Do

Revenue enhancement: *modern billing, debtor collection strategies, impairment reporting.*

Procurement reform: *cross-match vendors, eliminate conflicts, regulate processes.*

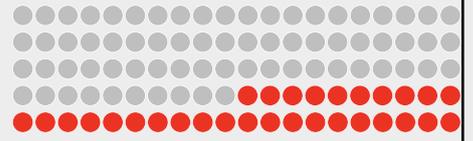

Training & skills: *credit management, data interpretation for staff.*

Outcomes

- Improved financial performance.
- Stronger procurement compliance.
- Empowered workforce with practical skills.

Phase 3:

Growth & Sustainability (Days 71 – 100)

What to Do

Embed accountability: exception reporting, performance tracking, system design.

Build trust: improved audit outcomes and service delivery visibility.

Secure resilience: policies reviewed, risks actively managed.

Outcomes

- Municipality seen as trustworthy and progressive.
- Stable systems that deliver consistently.
- Community confidence restored.

The CrossCheck

Local- & Central Government Information Bureau

Advantage

CROSSCHECK is the only bureau that can both process and host municipal data through our partnerships.

Proprietary impairment reports give leaders the facts to act decisively.

We don't offer generic reports — we provide actionable, system-ready insights.
